

# Canon

## **Canon PC940 Desktop Copier**

### **Product Overview:**

Our most popular copier, this "workhorse" machine does it all for half the price of the "big ones."

### **Product Details:**

**Does it all.** Enlarges to 141%, reduces to 70% and zooms in 1% increments. Copies onto letter- or legal-size sheets automatically — no expensive attachments to buy. In fact, you can even copy onto sheets as small as business cards.

**Heavy-duty.** PC940 is made bigger for bigger jobs. Makes 10 copies per minute at the touch of a button, up to 99 copies at a time.

**Refill paper less often.** Large paper cassette holds up to 250 sheets of paper, so you spend less time loading paper and more time copying.

**Includes** a Black Starter Cartridge and 3 year limited manufacturers warranty with first year on-site service!
